

VISHWA SUBRAMANIAM

Full-Stack Software Developer | MERN Stack | SharePoint / SPFx | TypeScript | Cloud-Ready Web Applications

+91 8072033358 | viswactngm@gmail.com | linkedin.com/in/vishwa-s-09a71a267 | vishwa103.github.io/MyPortfolio | Pollachi, Tamil Nadu, India

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Developer with 2+ years of professional experience designing and delivering scalable web applications. Proficient in the **MERN stack** (MongoDB, Express.js, React.js, Node.js), **SharePoint Framework (SPFx)**, and modern front-end ecosystems including TypeScript, Tailwind CSS, and Fluent UI. Experienced in agile delivery, RESTful API development, and CI/CD-enabled workflows. Adept at translating complex business requirements into maintainable, user-centric software solutions.

TECHNICAL SKILLS

Front-End:	React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, Tailwind CSS, Fluent UI, Material-UI (MUI)
Back-End:	Node.js, Express.js, RESTful API Design, Middleware Architecture
Databases:	MongoDB (Mongoose ODM), MySQL, SharePoint Lists
SharePoint:	SPFx (SharePoint Framework), PnP JS, SharePoint Online, Power Platform basics
Dev Tools:	Git, GitHub, VS Code, npm, Postman, Axios
Methodologies:	Agile / Scrum, Component-Driven Development, MVC Architecture, Responsive Design
Soft Skills:	Problem-Solving, Team Collaboration, Fast Learner, Active Listening, Time Management

PROFESSIONAL EXPERIENCE

Software Developer

Apr 2026 – Present

Starnxt Solutions LLP | Coimbatore, India

- Promoted to Software Developer in recognition of technical growth, ownership of complex modules, and consistent delivery of high-quality solutions.
- Taking increased ownership of system architecture decisions, code reviews, and mentoring junior team members.

Junior Software Developer

Jun 2023 – Mar 2026

T-NXT India Private Limited (rebranded to Starnxt Solutions LLP) | Coimbatore, India

- Promoted from intern to permanent Junior Developer within 5 months, recognising early contributions to production-grade applications.
- Architected and delivered a **custom ERP system** using SPFx + React.js integrated with SharePoint Online, streamlining internal procurement and asset management workflows.
- Built RESTful APIs with Node.js / Express.js consumed by React frontends, reducing average API response time through query optimisation and caching strategies.
- Developed an **E-commerce platform** (MERN stack) with product catalogue, cart, and order management modules serving real end-users.
- Implemented **PDF generation** and role-based access control (RBAC) for a Purchase Requisition system, improving compliance and audit readiness.
- Collaborated in a cross-functional agile team using Git branching strategies, code reviews, and sprint ceremonies to maintain code quality and on-time delivery.
- Integrated third-party APIs via **Axios**, ensuring robust error handling and seamless data flow between services.

Web Developer Intern

Feb 2023 – Mar 2023

Amypo Technologies | Coimbatore, India

- Developed a responsive web application using React.js with emphasis on clean UI/UX and reusable component architecture.

- Contributed reusable open-source UI components improving modularity, reusability, and front-end performance.
- Gained foundational exposure to agile development workflows and real-world project delivery practices.

KEY PROJECTS

Purchase Requisition (PR) System

Tech Stack: SPFx · React.js · PnP JS · SharePoint Online · PDF Generation · RBAC

- Digitised end-to-end procurement workflow with role-based access, real-time status tracking, and automated PDF export for audit compliance.
- Built a centralised dashboard surfacing all PR records with live SharePoint list data, reducing manual reporting effort by an estimated 60%.
- Designed fully responsive, accessible UI following Microsoft Fluent Design principles.

E-Commerce Platform – Natural Food Products

Tech Stack: MongoDB · Express.js · React.js · Node.js (MERN) · Axios · REST API

- Led full-stack development of product listing, cart, and order management modules from requirements through deployment.
- Optimised MongoDB queries and REST API endpoints, improving page-load responsiveness and reducing server round-trips.
- Delivered an intuitive UX increasing user engagement through streamlined navigation and checkout flow.

Asset Management System (Legacy Modernisation)

Tech Stack: SPFx · React.js · PnP JS · SharePoint Online · Responsive Design

- Re-engineered a legacy asset management tool with SPFx + React.js, achieving measurable improvements in performance and maintainability.
- Enabled real-time asset inventory visibility via SharePoint Lists, replacing manual spreadsheet tracking.
- Delivered cross-device responsive UI accessible on desktop, tablet, and mobile viewports.

EDUCATION

Master of Computer Applications (MCA)

2021 – 2023

Dr. Mahalingam College of Engineering and Technology, Pollachi

B.Sc. Computer Technology

2018 – 2021

Nallamuthu Gounder Mahalingam College, Pollachi
